Majapahit Beach Villas

AN EXCLUSIVE complex awaits you at Majapahit Beach Villas, which is comprised of four luxurious three-bedroom villas and boasts all of the facilities and services of a boutique resort. Situated near the traditional village of Ketewel on the southeastern coast of Bali, the property overlooks the Indian Ocean and the glistening black sand beach below.

The villas are designed along the lines of traditional Balinese principles, utilising local materials and reflecting elements of Hindu philosophy and symbolism. Throughout the landscaped grounds there are white Palmstaxel stone walkways, terracotta walls, and hand-carved doors. The four villas are Maya and Samudra located on the beautiful reef, while Raj and Nataraja overlook the beach.

Villa Maya comes complete with a swimming pool, tropical gardens, a timber deck leading to the beach, a relaxation lake, a jacuzzi and an outdoor shower. The same facilities are featured throughout Villa Samudra, with the exception of the jacuzzi which is unique to Villa Maya. Both Villa Raj and Villa Nataraja are characterised by large walled gardens containing private swimming pools as well as their amazing views over the ocean and to the nearby island, Nusa Penida.

Facilities within each villa include a TV/DVD/CD system in the living rooms and in each bedroom, wireless high-speed internet access, IDD telephone line and a safe deposit box. A fully equipped kitchen is provided in every villa for those who enjoy cooking, and there is also the service kitchen for the complex, which is suitable for catering for large events.

Relax by the sea

Majapahit Beach Villas are fully serviced by 36 staff members, including waiters, butlers, chefs, security guards and a property manager, ensuring guests don't need to worry about a thing.

For extra indulgence a spa therapist is available on request for traditional body and beauty treatments, as well as Balinese healing methods conducted in the privacy of your own villa. Each villa also has access to a car and a driver, allowing guests to explore the island at their own pace.

The magnificent location of Majapahit Beach Villas with its spectacular views are complemented by tropical surroundings of terraced rice fields, tobacco plantations, plus papaya and coconut groves. ☺
